

# Where will you go... when it's time to deliver?

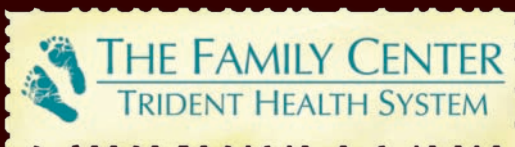

**“We went to The Family Center at Trident Health System.”  
-Justin and Megan Dungan**

**O**n May 1, 2009, we welcomed a wonderful little miracle into our lives. Finley Sophia has proven to be one of the most amazing blessings we could have ever imagined. This was our first pregnancy, and as expected, we had many questions and concerns going into the delivery. We knew that all our concerns were unfounded as soon as we checked into Trident Medical Center. The check in process went fast and before we knew it we were relaxing in our own suite awaiting the arrival of our little girl. Dr. Day proved to be the perfect obstetrician for us. It seemed that Sophia wanted to take her time in blessing us with her presence! We will be forever grateful for Dr. Day's patience and guidance during the delivery process. In addition, the wonderful nurses on staff were thorough and provided constant reassurance during our stay. The wonderful bond that we formed with all of the providers and support staff will never be forgotten.

We want to thank Trident Medical Center for making our stay a truly memorable experience. We have recommended their facility and staff to many of our friends, and will continue to do so!

Sincerely,  
Justin and Megan Dungan
